

Davey Durrelle: Win #14 on Pikes Peak

I am happy to announce the race went well for me this year. Despite some bad weather the road conditions were pretty good and I was not only able to win the 250 Pro Class but set a new record by over 13 seconds and finished 7th overall for all the motorcycle classes.

A big thanks goes out to Gary and Sue Stieberger who provided an awesome bike and all the rest of my sponsors for providing the tools I needed to win and the products to keep me safe.

VCgraphixs did a great job making the 1995 KX250 Look like the 2011 prototype I entered it as. It was great to see the interest that created.

Thank you to all:
